Factual Summary

Documentation of State-Sanctioned Atrocities, Expansionism, and Violations of International Law (2025-2026)Date: April 4, 2026

Subject: Comprehensive Record of War Crimes, the "Greater North America" Doctrine, and the "Palestinian Holocaust" I. The "Greater North America" and "Donroe" DoctrinesThe current administration has shifted toward an explicit policy of territorial expansion and regional dominance, characterized by the "Greater North America" initiative and the "Donroe Doctrine." 1. Territorial Expansion and Annexationâ€¢Canada: President Trump has repeatedly called for Canada to join the U.S. as a "51st state," using trade tariffs as a tool of economic coercion to force annexation.â€¢Greenland: The administration has pursued a campaign to acquire Greenland, describing it as an "absolute necessity." Officials have refused to rule out military force to achieve this goal.â€¢The "Donroe Doctrine": A revival of the Monroe Doctrine, asserting the Western Hemisphere as a U.S. sphere of influence where national strength, not international law, is the deciding factor. 2. The "Homeland Empire"â€¢Defense Secretary Pete Hegseth has redrawn the U.S. strategic map, stretching from Greenland to the Panama Canal, creating what critics call a "militarized homeland empire." II. The 2026 Iran War: Systematic Destruction of Civilian Life
